Blind Hole Puller Set

- This special puller is designed to pull blind hole bearings, bushings, and sleeves with inside diameters.

27128

1. Carefully measure the diameter of the bushing or bearing to be pulled making sure that it has a space behind the bushing or bearing for the flare on the attachment to expand when you tighten the attachment screw.
2. Always use the correct size pulling attachment to properly grip the bushing or bearing being pulled. Hold the slide hammer and attachment level making even strokes when removing the bushing or bearing.

**READ THE COMPLETE MANUAL
BEFORE ATTEMPTING TO OPERATE
THE BLIND HOLE PULLER SET.**

Caution: Always wear safety glasses

MADE IN TAIWAN
